House for sale in Molino De La Hoz, Rozas de Madrid, Las, Madrid

Bedrooms: 6

Restrooms: 4

Built Meters: 475

Description

This detached house built in 2001 is located in the urbanization of Molino de la Hoz, in Las Rozas, has all the services and the Logos and Berriz schools. Very comfortable distribution, account on the main floor of the house with 4 rooms are in the main part of the house, built on a plot of 2.898 square meters with a nice and nice pool of salt water, toilet, barbecue ideal to enjoy the tranquility offered by this urbanization.

It is a very bright and comfortable house to develop life on the main floor, from the large entrance hall you have access to two spaces: social area on the left (living room, kitchen and toilet) and front (porch, barbecue and swimming pool), on the right the private area of the house (bedrooms, bathrooms and stairs that lead to the attic and the ground floor).

From the main entrance and the hall there is access to the living room with air conditioning and double ceiling height that provides a feeling of spaciousness, has a fireplace with cassette, woodworker interspersed between the windows that lead to the porch, for convenience there is a door that communicates the living room with the kitchen; being able to access it from the main hall, with good storage space also has a laundry-pantry in a separate room; to give service to all this area of the house in the hall is the access to the toilet with shower. In front of the main door there is a large window through which you can access the porch and the pool and barbecue area. Through the corridor on the right, you can access the private part of the house, find the stairs that lead to the attic and ground floor, and the corridor that distributes the four bedrooms on the main floor, three good size individual with built-in wardrobe in each one of them, the bathroom that they share with a bathtub, there is also a good size master suite and very bright with dressing room. On the upper floor there is a loft with lots of light and well insulated and on the ground floor there is a second living room or multipurpose room, a room, a storage room and a bathroom that is accessed by an ante-room that could serve as a dressing room; At the end of the corridor there is access to the garage with automatic door. Next to the garage is the boiler room, with a hot water tank of 150 liters to be able to simultaneously use the hot water in the different rooms of the house and the 2 diesel tanks of 1500 liters each in separate rooms outside the house.
